MUHAMAD DANANG PRIAMBODO

Full-Stack Software Engineer

mdanangpriambodo@gmail.com +6285710945738 mcdanang.vercel.app Jakarta, Indonesia

Full-stack software engineer with 5+ years of web development experience, from AI-powered SaaS products to enterprise logistics and regulated financial platforms. Currently the engineering lead at a logistics company that ships internationally, reporting directly to the CEO. Owns the full lifecycle: requirements, architecture, REST API and database design, CI/CD and production support. Leading the rebuild of the company's platform, designed for AI-assisted development with Claude Code. Previously built securities crowdfunding platforms with e-KYC, digital signature and banking integrations, and data-intensive features for an enterprise analytics platform. Founder of Wrotels, an AI-powered IELTS writing SaaS. Used to working remotely with international, cross-functional teams.

Experience

Full-Stack Engineer | Rimkirim - Jakarta, Indonesia April 2026 - Present

- Lead technical architecture and implementation decisions for internal and customer-facing applications, working directly with the CEO to turn business strategy into technical execution.
- Own the full software development lifecycle, from requirements gathering and architecture to deployment and production support.
- Develop and maintain logistics platforms with Laravel, Nuxt.js, TypeScript and Tailwind CSS, designing scalable REST APIs, backend services and data models, and optimizing performance.
- Integrate logistics providers to automate the flow from quotation and booking to shipment and tracking, cutting manual work for the operations team.
- Help the team deliver quickly through AI-driven development, code reviews and engineering best practices, and troubleshoot production issues.

Software Engineer | Sprout Digital Labs - Tangerang, Indonesia July 2025 - April 2026

- Built complex, data-intensive features for a large enterprise analytics platform in a highly regulated environment, using Next.js and TypeScript with a focus on performance.
- Owned proof-of-concept work for new requirements and gave technical and design recommendations that shaped product decisions.
- Worked with product and UI/UX teams across several regions. Improved delivery speed with a modular component architecture and reusable patterns.

Founder | PT Mcideas Work Digital - Depok, Indonesia October 2024 - Present

- Founded a company building AI-powered SaaS web applications for B2C markets. Responsible for product direction, technical strategy and the end-to-end lifecycle of each product.
- Designed and built Wrotels, an AI-powered IELTS writing simulation platform (Next.js), with internationalization (i18n) and a secure payment gateway for global users.

Full Stack Developer | PT Surya Fajar Urun Dana - Jakarta, Indonesia January 2025 - June 2025

- Led the end-to-end development of SFUND v2, a securities crowdfunding platform, from planning to deployment.
- Architected the full-stack solution and built a responsive, accessible frontend with Next.js, Tailwind CSS and shadcn/ui, improving performance and SEO.
- Kept code quality high through testing, code reviews and clear modules, working with product, design and business teams

Back End Developer | PT Surya Fajar Urun Dana - Jakarta, Indonesia September 2023 - December 2024

- Built and maintained backend services, APIs and databases for securities crowdfunding applications with Laravel and Node.js.
- Integrated third-party e-KYC, digital signature and banking payment APIs. Built a secondary market system for trading investments between users.
- Applied security best practices to protect sensitive data, meeting Indonesia Financial Services Authority (OJK) requirements.
- Deployed applications on Linux VPS and managed MongoDB databases hosted on Google Cloud Platform.

Web Developer | Freelance - Remote July 2021 - June 2024

- Designed and built web applications for clients, including McInvest, a project-based investment platform, and the company website of PT Aresta Karya Mandiri.

Earlier Engineering Career October 2018 - January 2023

- Mechanical Engineer, PT 3RAS Engineering (Sep 2021 – Jan 2023) · Piping Design Engineer, PT Rekayasa Industri (Jun 2019 – Jun 2021) · R&D Engineer, PT Garuda Metalindo (Oct 2018 – Apr 2019)
- Analysis, design, simulation, technical documentation, and cross-team project coordination on industrial projects.

Education

Full Stack Web Development - Best Student | Purwadhika Digital Technology School 2023

Bachelor of Science, Engineering - GPA 3.64 (Cum Laude) | Institut Teknologi Bandung 2014 - 2018

Projects

Wrotels | AI-Powered IELTS Writing Simulation Platform - https://www.wrotels.com/ 2024 - 2025

- AI-powered IELTS writing simulation SaaS with instant scoring and feedback.

McInvest | Crowdfunding Platform - https://mcinvest.vercel.app/ 2023 - 2024

- Project investment platform with an investor dashboard and investment history reports.

Teman Sejati | Wedding Digital Invitation - https://teman-sejati.com/ 2024

- Personalized digital wedding invitations that users can customize and share instantly.

Certifications

Fundamental DevOps (VM, Docker, CI/CD, Nginx, Load Balancing) | Pacmann

Beginner API Development with Golang (Golang, Gin, GORM) | iSwift

Back End Development and APIs (Node.js, Express.js, MongoDB) | freeCodeCamp

Relational Database (Bash, Git, PostgreSQL) | freeCodeCamp

Data Visualization (D3.js) | freeCodeCamp

Front End Development Libraries (Bootstrap, jQuery, React, Redux) | freeCodeCamp

JavaScript Algorithms and Data Structures (ES6, OOP, FP) | freeCodeCamp

Responsive Web Design (HTML, CSS) | freeCodeCamp

Project Management Certificate | Belajarlagi

NodeJS Backend Development with Adonis | Candradimuka Jabar Coding Camp

Organizations

Rumah Belajar Nusantara | Board of People Development 2020 - 2023

Himpunan Mahasiswa Mesin ITB | Head of the Aspiration Commission 2017 - 2018

Keluarga Paduan Angklung ITB | Chairman and Conductor 2016 - 2017

Student Club | Chairman 2012 - 2013

Achievement

- Awarded the Ganesha Karya Award ITB (2018)
- Represented Depok City in the National Science Olympiad (OSN) – Mathematics Field (2013)

Skills

- **Languages** - TypeScript, JavaScript, PHP, Go, Python, Java, SQL, HTML, CSS
- **Frontend** - React, Next.js, Nuxt.js / Vue.js, Astro, Tailwind CSS, shadcn/ui, Redux
- **Backend** - Node.js, NestJS, Express, Hono, Laravel, REST API, GraphQL, tRPC, authentication
- **Data** - PostgreSQL, MySQL, MongoDB, Redis, Kafka, Drizzle, Prisma, Sequelize, schema design
- **Cloud & DevOps** - GCP, AWS, Cloudflare, Git, Docker, Linux, Nginx, CI/CD, Jenkins
- **Quality** - Vitest, Prettier, code review, log analysis and production troubleshooting
- **AI** - Claude Code, Cursor, prompt engineering, building LLM-powered products
- **Ways of working** - Architecture decision records, requirements analysis, estimation, remote and cross-functional teams

Languages

English - 577 (TOEFL ITP)
